Intermittently I have worked as a freelance in web and mobile programming area (more than 15 projects: among them: a wine store in prestashop (vinolandia.net), two real estate agencies (inmoana, inmobiliariaenoferta.es), several self-managed blogs, pages professionals and corporations), using the technologies: Apache HTTP Server, Actionscript, PHP, MySQL, WS, HTML, jQuery, Bootstrap ...

In addition to various corporate design, web, signage, heraldry, 3D, etc.

Since June 2019, I have been realized, with this one that I am currently in progress, 5 labor certifications:

- ✓ Computer Security - 07-11 / 2019 - COPERMATICA, CENTRO DE FORMACION SL.
- ✓ Assembly, Installation and Rethinking of Photovoltaic Solar Installations. 06-09 / 2020 - TECNAS - SERVICIOS INTEGRALES DE FORMACION Y DESARROLLO, SLL.
- ✓ Managing of Activities in Children's and Youth Educational Free Time. - 11 / 2020-05 / 2021- CENTRO POLIVALENTE INFOSYSTEM, SL
- ⚙️ (in progress) **Teaching Vocational Training for Employment** (teletraining). Here I have developed in parallel teaching activities, using Laravel + TailWindCSS + Livewire and its integration, and a notable concern for the development and programming of the Moodle Virtual Teaching - Learning Environment and its integration with other frameworks. Since 07 / 2021 - CIUDAD REAL NATIONAL REFERENCE CENTER.
- ⚙️ (in progress) **Qualification of Advisors of the Professional Competences Accreditation Procedure** (teletraining) -10/2021 - CIUDAD REAL NATIONAL REFERENCE CENTER.

Additionally, since June 2019, I have acquired updated knowledges, more training and management through tasks and exercises with the following technologies (mainly from UDEMY):

- Full Stack Web Development Master: REST APIs with Node.js, Symfony 5, Laravel 8 and webapps with Advanced Angular 12.
- Microservices with Spring Cloud and Angular Full Stack.
- Master in Python 3.0
- Laravel and Vue Js Advanced
- HP QTP / UFT with VBscript
- Test Driven Development with Java and JUnit5
- Reactjs, React Hooks: Film archive search engine relying on IMDB API, using Redux, Material UI.

I hope that my profile fits into any of the selection processes that you have open now or in the future.

Thanks for your attention.

Ramón Ramírez de Verger Rodríguez.
